

P14 - Impact of Environmental Targets on Corporate Innovation

5. INNOVATION for SUSTAINABILITY

Emma Rui Lu¹ (emmarl@kth.se)

Petter Dahlström¹ (pedahls@kth.se)

¹ Engineering Design, KTH Royal Institute of Technology, Stockholm, Sweden

Track summary: This panel invites papers submissions exploring the relationship between sustainability reporting and firms' innovation strategies. Paper presentations and discussions will explore how sustainability targets lead companies to push for innovations and strategy changes in an effort to meet their climate goals. See below for track description section for further explanation.
